Toes in
the sand...

it's the best cure
for a bad day!

Glenda and Andy (aka Bulldog),

We had so much fun at Play N Hooky! My mom enjoyed being there with all the kids, the kids enjoyed everything, Scotty and I enjoyed everything! You have the BEST beach house we've ever stayed in, hands down! We have found our Surfside destination for the future! We hope you never sell it! Please do not worry about the dryer knob!!! I felt bad because it happened while we were there and if it were me, I wouldn't have wanted to be there with a dryer I had to rig. So I found the knob, got it, and you have a lifetime warranty on it if it ever breaks again and you know where to go! Plus (unless you told them) your neighbors never had to know anything happened :-) It was such a pleasure meeting you and talking with you, Glenda! You are an absolute doll!! I hope we can meet Andy next year when we come back! I told you before we came down that we would clean the place top to bottom, so I'm glad you felt we did a good job. When a place is that nice you want to take care of it anyway.

Surfside did a great job of repairing the beaches! It was so wonderful to be there to listen to the waves roll in morning and night! Those awesome deck chairs made it so comfortable to have a cup of coffee in the morning or an alternate beverage in the evening :-) Thank you for the use of the golf cart!! That was so much fun! We treated it better than if it was ours! Once we got the charger figured out!! hehehe!! The kids really enjoyed it too - they took turns riding up front when it was just one of us. I'm finding hard to not go on and on about the wonderful time we had at your place! Scott has a hard time relaxing and he chilled out right away, I was so happy for that! It was awesome! The kids made some friends too which made it even better. I'll close now, but we all want to say a BIG thank you for letting us use your beautiful beach home! Hope Andy (aka Bulldog) had a great birthday at the beach!
